**Venue:**

**SIES COLLEGE OF MANAGEMENT STUDIES**

Nerul, Navi Mumbai

Email: [siescomsicnbits@sies.edu.in](mailto:siescomsicnbits@sies.edu.in)

## ABOUT THE INSTITUTE

Rooted in a rich legacy of academic excellence and social commitment, the **South Indian Education Society (SIES)**, established in 1932, has consistently upheld the belief that education and research are powerful instruments of nation-building. Guided by this enduring philosophy, **SIES College of Management Studies (SIESCOMS), Navi Mumbai**, since its inception in 1995, has been committed to nurturing responsible leaders, advancing scholarly inquiry, and contributing meaningfully to society through high-quality research and knowledge dissemination. SIESCOMS offers postgraduate programmes including the Master of Management Studies (MMS), Master of Computer Applications (MCA), and PhD programmes in Management Studies and Computer Applications. The MMS and MCA are two-year, full-time programmes of the University of Mumbai and are approved by the All India Council for Technical Education (AICTE). Both the MMS and MCA programmes are accredited by the National Board of Accreditation (NBA), and SIESCOMS is accredited by the National Assessment and Accreditation Council (NAAC).

## ABOUT THE CONFERENCE

SIESCOMS is organising the International Research Conference on “Nation-Building through Innovation, Technology and Sustainability” as a global academic and professional forum to examine how innovative thinking, technological advancement, and sustainable practices can together drive inclusive and resilient nation-building. The conference brings together researchers, academicians, policymakers, industry professionals, entrepreneurs, and development practitioners from across the world to share research, insights, and best practices that support national progress in an interconnected and rapidly evolving environment. Recognising that nation-building in the 21st century extends beyond economic growth to include social equity, environmental responsibility, technological preparedness, and institutional strength, the conference emphasises that innovation and technology achieve their true impact only when guided by sustainability, fostering dialogue that leads to economically robust, socially inclusive, and technologically empowered nations.

## CALL FOR PAPERS

We invite research scholars, industry practitioners and academicians to submit original research papers, case studies, and conceptual work aligned with the main conference theme. Submissions are encouraged across all management disciplines, with a focus on innovation, digital transformation, sustainability, and their role in shaping a future-ready India.

## **PRE-CONFERENCE WORKSHOP**

**March 13, 2026**

### **OBJECTIVES OF THE PRE-CONFERENCE SESSIONS**

- To strengthen research methodology and theory development skills among faculty members and research scholars.
- To equip participants with tools for systematic literature review, bibliometric analysis, and theory-driven research.
- To highlight research opportunities in sustainability management and industry-linked projects aligned with national priorities.
- To set a strong academic foundation for the conference through rigorous, impactful, and policy-relevant research.
